

# A local perspective on international law

**HK** International Network  
[www.hki-network.com](http://www.hki-network.com)

It is not very often that lawyers agree on many things but when they do it can be very powerful.

This is the premise behind the HK International Network. The Network, brings together experienced commercial solicitors and financial experts from across Europe under a single banner.

The benefit to clients is immediate and lasting.

By dealing with a local HK International Network member you can access experts with many years experience in international commercial matters and their own law at a fraction of the cost of larger international firms.

At the heart of the network is trust. And when you are dealing with commercial matters across international borders this is key.

Our members have worked together for many years on a variety of commercial matters for their respective clients – whether buying or selling a holiday home abroad or helping to build a framework for complex negotiations and agreements.

The HK International Network can help.

If you need legal advice that involves an international element then contact your nearest HK International Network member.

“*The extremely close relationships of the network members has been enormously helpful and beneficial to us”*

*Jean-Louise Roques,  
President of Onduline and CEO of Fananciere OFIC*

“*The HK International Network has proved beneficial to my business”*

*Rex Badgely, CEO  
Hamworthy Combustion*”
